PROJECTS

High-Performance HTTP Server Go · 2026

- Achieved 60k req/sec on modest hardware via per-connection buffer reuse and zero-copy header parsing.
- Profiled and eliminated sync.Pool contention, yielding a 216% throughput improvement.

Facial Emotion Recognition System Python · PyTorch · FastAPI · 2026

- ResNet50 + CBAM attention model trained on Nigerian children (ages 6–12) — addressing underrepresentation in emotion-recognition datasets.
- Exported to ONNX for production inference via FastAPI; deployed at fer-emotionai.vercel.app.

VoiceBox — Complaint Management System Node.js · Express.js · MongoDB · 2026

- Anonymous + identified complaint submission with tracking codes and admin resolution dashboard.
- Full MERN stack; live at voicebox.vercel.app.

SMSE Inventory Management System PHP · MySQL · TailwindCSS · 2025

- Real-time stock monitoring, low-stock alerts, purchase order management, and sales analytics for SMEs.

EXPERIENCE

Freelance Backend & Full-Stack Developer Dec 2024 – Present

- Built and deployed production web applications for clients across diverse industries.
- Developed high-performance HTTP/1.1 server in Go achieving 60k req/sec through zero-copy techniques and lock contention elimination (+216% performance gain).
- Designed VoiceBox, an complaint management platform used by business owners.

Frontend Intern — Deazy Tech Solutions Dec 2023 – Mar 2024

- Built responsive UI components and contributed to client-facing web projects.
- Served as SIWES Lead, mentoring and teaching HTML/CSS to 100+ students during the industrial training programme.
- Collaborated with the engineering team to deliver features on schedule using modern JavaScript and HTML/CSS.

SKILLS

Languages: Go, Python, JavaScript, PHP, SQL
Frameworks & Tools: Node.js, Express.js, FastAPI, PyTorch, Docker, Redis, Git
Databases: PostgreSQL, MongoDB, MySQL
Specialisations: System Design, Performance Optimisation, Network Programming, REST APIs, Deep Learning, Computer Vision

EDUCATION

Federal Polytechnic Ede Osun State, Nigeria

ND Computer Science — CGPA: 3.65/4.00 2023 – 2025

- Capstone Project: Student Complaint Management System (Node.js, Express.js, MongoDB).

HND Software and Web Development 2026 – Present

Miva Open University 2026 – Present
